## Keynote Speech

### Current trends in UK GP medical education

**Professor David Weller, HKCFP Visiting Professor**

Professor David Weller, graduated from the University of Adelaide Medical School. He undertook PhD studies in Adelaide and Nottingham, and from 1995 to 2000 was Senior Lecturer at the Department of General Practice at Flinders University in South Australia.

Since 2000, he has been James Mackenzie Professor of General Practice at the University of Edinburgh and was the Head of the Division of Community Health Sciences from 2005-2012.

His current research interests include primary care oncology and medically unexplained symptoms in primary care. He leads the Cancer and Primary Care Research International Network (CA\_PRI) promoting international research collaboration, is a member of the National Cancer Research Institute Primary Care Clinical Studies Development Group (Chair from 2007-2010) and is actively engaged in activities to build capacity in primary care and cancer research in the UK. His key areas of interest are primary care, screening, early diagnosis, follow-up, survivorship and prevention.
